

Rock and Rock Cycle Study Guide

1. Fill in the chart below.

	How it forms	Examples (at least two)
Igneous Rock (p.368-371)		
Sedimentary Rock (p.372-375)		
Metamorphic Rock (p.376-381)		

2. Define the rock cycle. (p. 360)

3. Define the following terms related to events in the rock cycle. (p.361)

a. weathering-

b. erosion-

c. deposition-

d. melting-

e. cooling

f. solidification

g. compaction

h. cementation

i. heat

j. pressure
